EXPERIENCE

Founder | Endurance-I | IIM Indore | Dec 2024
Built and led a 500+ member fitness community; organized 2 flagship competitions, designed 350+ customized workout plans, recruited and mentored 3 junior associates, and collaborated with institute administration on facility improvements.

INTERNSHIPS & LIVE PROJECTS

Financial Intelligence & Deal Tracking Platform | Personal Project | Present
Developing an AI-assisted research platform that synthesizes financial news, institutional research, and market data to track investment themes, IPOs, M&A transactions, PE/VC activity, and capital market developments, creating a structured repository for investment analysis and decision-making.

Development Finance Intern | Access Livelihoods | Apr 2026 - June 2026
Worked directly with the COO on capital restructuring, shareholder evaluation, banking operations, and governance projects; analysed audited financial statements of prospective institutional shareholders, built a gratuity liability model, supported DEMAT conversion initiatives, and coordinated renewal of a ₹17.67 lakh bank guarantee.

Live Project: Growth Strategy Project | Cup-Ji | Sept 2025 - Feb 2026
Formulated a data-driven market entry strategy for Cup-Ji's upcoming vending machine vertical by executing a rigorous competitive analysis of 10+ industry leaders (including Nescafé, Davidoff) across 25+ strategic variables such as pricing, distribution, and UVP; collaborated with a cross-functional team of 10+ to integrate insights from benchmarking, target-segment profiling, & location-feasibility assessments into a structured launch plan.

Earnings Quality Analysis & Monte Carlo Forecasting | Personal Project | Jan 2026
Evaluated earnings sustainability of large-cap Chemicals & Petrochemicals firms through CFO-to-Net Profit analysis and built a 10,000-simulation Monte Carlo model to forecast NIFTY 50 return distributions, downside risk, and expected outcomes.

ACADEMIC & RESEARCH PROJECTS

Impact of ADHD Traits on Performance & Achievement | Psychology
Led a mixed-method study with 100+ students using CAARS, Grit Scale, and the Torrance Short Form to examine how ADHD traits influence creativity, resilience, and academic motivation; Combined quantitative survey responses with structured qualitative interviews to compare behavioural patterns between ADHD and non-ADHD participants.
