Problem Statement & Our Approach

Low Attendance & Retention
Women face irregular attendance due to household duties, relocations, and lack of family support. Dropouts weaken continuity and reduce impact.

+

Donor Dependence
The centre incurs ~₹20,000/month OPEX but generates zero revenue, relying fully on donor funds. Skills learned don't convert into sustainable income streams.

+

Lack of Market Linkages
Products made (e.g., stitching output) lack branding, business models, and access to markets. This creates zero demand pull and no financial returns.

How can UPAY's skill development centretransform from a donor-dependent setup to a self-sustaining, revenue-generating micro-enterprise for the women it trains?

How can UPAY streamline data collection and convert it into actionable insights through a simple, costeffective, and user-friendly system?

How can UPAY design a sustainable and community-driven waste management model that improves hygiene, awareness, and livelihood opportunities in underprivileged areas?

KEY CHALLENGES

Even when training is available, women's participation is limited by household duties, social norms, and family approval.

The centre lacks structured market linkages, branding, and data-driven monitoring systems.

OUR APPROACH

Industry Insights → Community Mapping → Skill + Business Training → Pilot Micro-Enterprises → Tech Integration → Partnerships & Branding → Scale & Replicate

EXECUTIVE SUMMARY

The Context

UPAY's Noida Skill Centre faces ₹20,000/month OPEX with zero revenue, high dropout rates among women, poor community hygiene, and weak data systems leading to donor dependence and limited impact.

The Mission

Transform UPAY's model from a donor-dependent training centre into a self-sustaining, community-driven, and tech-enabled social enterprise.

Our Solution

???

The Impact

Achieve financial breakeven in 12–18 months.
Women's average income rises by ₹6,000–₹10,000/month.
Create 50+ family livelihood opportunities via enterprises and waste initiatives.
100% donor visibility through live dashboards → boosting credibility and scalability.

The Solution (Our Integrated Model)

UPAY SWACHH SEVA
स्वच्छ सेवा

The Challenge
- Poor hygiene around slums & markets.
- Shopkeepers need affordable cleaning.
- Slum dwellers lack steady work.

Our Agency Model
- Workers (slum dwellers) on 6-month contract + retention bonus.
- Shopkeepers on 5-month renewable contracts.
- Agency supervises quality + payments

Revenue Model Block
- Shop fee: ₹500/month.
- Worker wage: ₹350/month (per shop).
- Profit: ₹150/month per shop.
- 25 shops → ₹3,750 profit/month per worker.

PROBLEM

Noida slum & shops have hygiene issues but no sustainable service

SOLUTION

Contract slum workers to clean shops & incentivize retention

ROADMAP

Plan business-action cycle based on demand-supply dynamics post month 5

REVENUE

₹150 +

Charge shops ₹150/week for cleaning; collect renewal fee every 5 months

CHALLENGES

- Retention issues & monitoring at start
- Align shop renewal & worker retention cycles

IMPACT

Assure income for workers + upskill women to provide livelihood in families

KNITTING/CROCHET BRAND

What if traditional crochet, often dismissed as just a household hobby, became the engine for a global collectible craze? SoulStitch reimagines women's handmade crafts into premium mystery dolls, designed for impulse buying at fairs and high-paced consumer markets, blending social impact .

SoulStitch
Made by Her, For Her

Handmade | Premium | Scalable

OPPORTUNITY

Leveraging Skills
Women transform household crochet/stitching skills into market-ready products

Premium Products
Scarves, beanies, collectible "mystery doils" tap into impulse buying culture

Sales Channels
Fairs, bazaars, CSR tie-ups. WhatsApp & Instagram sales

Community Impact
Builds women's income + community identity, every product tells a story

BUSINESS MODEL - SNAPSHOT

Sales
₹3,00,000
(500 items × ₹600)

Costs
₹1,54,000
(yarn + stalls + machines)

Profit
₹1,46,000 per year

IMPLEMENTATION

- Start manual, rent machines if demand grows
- Form cooperative for QC + sales
- Partnerships with NGO stores & CSR buyers

SOCIAL IMPACT

Direct Livelihoods
Each batch of ~10–12 women generates steady annual profit.

Household Impact
Extra ₹5,000–₹8,000/month income per woman → supports school fees, healthcare, stability.

Community Identity
Builds pride, reduces dropout rates (since training links directly to cash inflow).

The Solution (Our Integrated Model)

GYM-MEAL DELIVERY

FitFuel

UPAY FitFuel
Gym Meal Plans

NUTRITION WITH PURPOSE.

VIEW THE APP HERE

Fuel Your Fitness
Empower Her
Future.

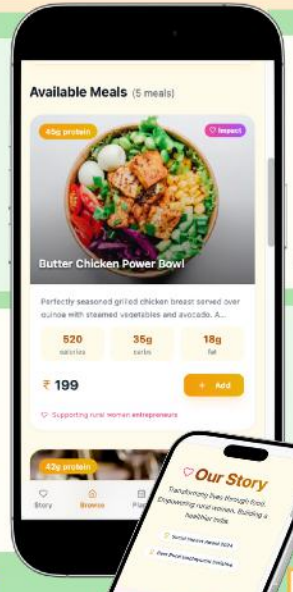

Scalability
- **Urban Fitness Hubs:** Replicable in Tier-1 and Tier-2 cities with gyms, startups, co-working spaces.
- **Corporate Tie-ups:** FitFuel for office lunch programs → bulk orders.
- **Digital Expansion:** Simple mobile app for subscription + tracking (future phase).

Nutrition Gap in India's Fitness Boom

High cost & inconsistent nutrition from restaurants

Busy professionals can't cook balanced meals daily

Opportunity: Link UPAY-trained women to the booming fitness & wellness food market.

FitFuel GYM MEAL PLAN
Nutrition with Purpose

Strength for You, Livelivoud for Them.

- Daily high-protein meals (chicken, pancer, eggs, dalsitn)
- Revenue: - ₹ 2,000 / month
- COGS: - ₹ 1,20,000 (ingredienis ++ delivery)
- Profit: - ₹ 80,000/ month

Scalable & Brofitable

BUSINESS MODEL

- 30 gym-goers: 1,5 meals/day ×₹150/meal
- Revenue: - ₹ 2,00,000/month
- COGS: - ₹ 1,20,000 (ingredients+)
- Profit: - ₹ 80,000/month
- Breakeven: 3 months

Fitness Meets Social Impact

20+ women engaged in prep, packaging, delivery

30+ gym-goers with affordable nutrition

Scalable to multiple gyms/offices →₹5-6 lakh annual profit

Social Impact
- **For Women:**
  - **Employment for 20+ women (prep, packaging, delivery).**
  - **Skill-building in nutrition, quality control, customer service.**
- **For Fitness Consumers:**
  - **Affordable nutrition → improved lifestyle outcomes.**
- **For UPAY:**
  - **Self-sustaining revenue stream, model replicable in other cities.**

Business Model
- **Revenue Streams:**
  - Subscription fee from gym-goers (₹140–₹160 per meal box).
- **Unit Economics (Pilot):**
  - Subscribers: ~30 gym-goers.
  - Meals: ~1.5 per day × 30 days.
  - Revenue: ~₹2,00,000/month.
  - Costs: ~₹1,20,000/month (₹90k ingredients + ₹30k delivery).
  - Profit: ~₹80,000/month.
- **Breakeven Timeline: 3 months.**

PACKAGING/LABELING SERVICE

Problem

Small producers (honey, spices, handicrafts, textiles) lack professional packaging → blocks entry into online & urban markets; forces low pricing, restricts sales to local mandis/fairs.

Opportunity

UPAY women can offer affordable, professsional packaging & labeling with simple equipment. Creates dual impact: women earn, small producers scale.

E-commerce growing at >25% annually; artisanal & organic product demand surging; packaging is the critical bottlenekck.

Business Model Snapshot

₹50K-70K	₹15K–18K	35–40%
(per month)	(per month)	Profit Margin

Potential annual revenue
₹6-8.5 Lakh per centre

SOCIAL & ECONOMIC IMPACT

Direct Employment
10–12 women per centre trained as packaging staff

Micro-Producer Impact
Improved access to e-commerce, fairs, and CSR buyers → higher margins for small farmers/artisans

Women's Income
~₹5,000–₹7,000/month per woman once business stabilizes

Community Perception
UPAY becomes a value-chain enabler, not just a training provider

Implementation Roadmap

3 PHASED

Phase 1 (0–3 months)
- Rent tabletop sealer & label printer
- Train 10–12 women on QC, hygiene, and branding basics
- Pilot with 2-3 micro-producers (honey, spices)

Phase 2 (6–12 months)
- Expand to 20–25 clients (local farmers/artisans)
- Standardize packaging SKUs (bottles, pouches, jars)
- Build UPAY Packaging brand identity

Phase 3 (Year 2)
- Purchase machinery with reinvested profit
- Explore B2B contracts with CSR-backed rural producer groups
